Questions/City responses

Question: Is it possible that you could provide a list of the locations at which testing is to be conducted? If so, please indicate by location the work schedules and the number of employees to be tested.

Response: In the past we have tested all employees at one single location, most recently the Fairgrounds located at 421 27th Street Northwest, in Winston-Salem, NC. However, we would like to see if it would be possible to test employees at other locations, which have yet to be determined.

We have considered testing at the following potential locations:

- 1) Utilities employees (approximately 225) at the Utilities Construction and Maintenance Building, located at 1550 MLK Drive.
- 2) Sanitation, Fleet, Fire, Community and Business Development, DOT/Traffic, DOT/Field, Property Maintenance, Recreation Maintenance, Golf Course, Vegetation Management, Cemetery (approximately 270 people) at 2000 Lowery Street.
- 3) Fire Department at Winston-Salem Fairgrounds (approximately 337 people)

If the tester is willing to test at different locations, please let us know the following: 1) the specifications for any testing area (electricity needs, space needed, distance from roadways, etc.), 2) how long it would take to set up, and take down your equipment, 3) any additional information you feel is warranted.

Question: How many and how often will employees be tested? **Response:** We're looking to test 800-850 employees within a 1-2 week period.
