

News from the Plumbing Inspectors

February 2013

All information herein was referenced for the Winston-Salem/Forsyth County Area. If you have questions concerning other Inspection Divisions. Please, contact that division for your answers.

Winston-Salem/Forsyth County Inspections Division

We look forward with ambition and enthusiasm in developing a better working relationship between you and our department.

Questions from contractors?

Question:

Do I need to protect pipes going through concrete floors?

Answer: Yes,

Section 305.1 on the 2012 NC Plumbing Code states:

305.1 Corrosion. Pipes passing through concrete or cinder walls and floors or other corrosive material shall

be protected against external corrosion by a protective sheathing or wrapping or other means that will withstand any reaction from the lime and acid of concrete, cinder or other corrosive material. Sheathing or wrapping shall allow for movement including expansion and contraction of piping. Minimum wall thickness of material shall be 0.025 inch (0.64 mm).
